DETAILED ACTION

1. Applicants' submission of the "Remarks" filed on September 29, 2003, is acknowledged.
2. The rejection of the claims under 35 U.S.C. 103(a) is withdrawn in view of the Applicants' submission of a Certification of Registration which commemorates the name change of the instant assignee from Nycomed Imaging AS to Amersham Health AS and an explanation that the cited publication is commonly assigned with the instant application.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claim 10 provides for the use of microbubble-bound cells, but, since the claim does not set forth any steps involved in the method/process, it is unclear what method/process applicant is intending to encompass. A claim is indefinite where it merely recites a use without any active, positive steps delimiting how this use is actually practiced.

Claim 10 is rejected under 35 U.S.C. 101 because the claimed recitation of a use, without setting forth any steps involved in the process, results in an improper definition of a process, i.e., results in a claim which is not a proper process claim under 35 U.S.C. 101. See for example *Ex parte Dunki*, 153 USPQ 678 (Bd.App. 1967) and *Clinical Products, Ltd. v. Brenner*, 255 F. Supp. 131, 149 USPQ 475 (D.D.C. 1966).

5. Claims 1-10 are deemed to distinguish over the prior art.
